

National Geographic Cover

Adv. Assignment #3-Photoshop

Requirements:

1. Design a cover (8.5/11) for National Geographic that includes an image of an animal(s).
2. The image you choose can be a scan or from a digital photo (photo server).
3. Include all the text that one normally finds on a National Geographic cover.
Just the title of the magazine at the top will not be sufficient. National Geographic uses Times New Roman.
4. You need to use the Gaussian blur technique to make the animal the focal point of the image.
5. Adjustment Layer Possibilities:
 - levels, curves, color balance, contrast/brightness.
6. Save as: initials_03assign.psd

Due Date: TBA

Point Value: 75 points
